PROFESSIONAL SUMMARY

Recent Physics B.Sc. graduate and IBM certified Full Stack Developer with strong analytical skills. Passionate about building scalable web applications and integrating Generative AI solutions. Proven experience in MERN stack, AWS, and RAG architectures. Seeking to leverage computational logic and software engineering skills to contribute to dynamic development teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, HTML, CSS

Frameworks: React.js, Node.js, Express.js, LangChain, TailwindCSS

AI Engineering: RAG (Retrieval-Augmented Generation), AI Agents, Model Context Protocol (MCP), Vector DBs

Tools: Git, Docker, AWS (EC2), Postman, MongoDB, RESTful APIs, VS Code

PROJECTS

InstaGlowUp | *MERN Stack, AWS EC2, Socket.io*

Nov 2025 – Dec 2025

- Engineered a full-stack social media application featuring real-time messaging and image sharing.
- Deployed the application on AWS EC2, configuring Nginx as a reverse proxy for enhanced security.
- Optimized database queries in MongoDB to reduce load times by **40%**, improving user retention.

AI Agent & Linux File System MCP | *Python, LangChain, MCP*

Dec 2025 – Present

- Architected an autonomous AI agent utilizing the **Model Context Protocol (MCP)** to interact directly with local file systems.
- Implemented secure Linux file operations (read/write/execute) allowing the agent to automate complex directory management tasks.
- Integrated Retrieval-Augmented Generation (RAG) to allow the LLM to query technical documentation with **95% accuracy**.

Odisha Farm Connect | *React, Node.js, MongoDB, Express*

Oct 2025 – Present

- Developing a modular full-stack architecture, utilizing **React.js** for dynamic frontend state management.
- Implementing a robust RESTful API using **Node.js** and **Express.js** to handle asynchronous data requests.
- Designing efficient **MongoDB** schemas to structure complex relationships between user inventories and product data.

EXPERIENCE

Freelance Full Stack & AI Developer

July 2025 – Present

Self-Employed

Remote / Bhubaneswar

- Designing and building custom web applications and AI solutions for portfolio and startup clients.
- Specializing in integrating Generative AI into traditional web architectures to automate workflows.

EDUCATION

Berhampur University

Bhubaneswar, Odisha

Bachelor of Science in Physics

2022 – 2025

Relevant Coursework: Computational Physics, Mathematical Modeling, Statistics, Electronics, Logic & Reasoning.

CERTIFICATIONS

IBM Full Stack Software Developer Professional Certificate (Coursera) – Nov 2025
